

ST. DAVID'S SCHOOL

Science & Technology Instructor

St. David's School is currently seeking **Middle and Upper School Science & Technology Instructor** for the 2022-23 school year. The role of science and technology instructor is to inspire young minds to explore the application of science concepts through the vehicle of technology. Courses taught may include computer programming, robotics, innovation & design, engineering and other science content.

The ideal candidate will have experience teaching technology at the middle or upper school levels and will possess a degree in science or technology. Candidates should have experience working with robotics, computer programming and/or engineering. They should also be enthusiastic to learn new skills and share them with students. Candidates should inspire wonder in young men and women by encouraging them to examine the natural world and explore all possibilities when solving problems. Instructors should be willing to use a variety of teaching methods and collaborate with others in the school to best meet the needs of all students. The candidate must fully embrace the school's mission, philosophy and traditions.

Salary and benefits are competitive, classes are small and the work environment is collegial. All candidates are encouraged to visit the St. David's School website at www.stdavidraleigh.org to learn more about the mission and vision of the school and to apply for the position on our [Employment page](#).
