

COVID-19 PROTOCOLS FOR CAMPS & PROGRAMS

The wellbeing of our camp participants and instructors is the most important factor in our decisions. The COVID-19 protocols for camps and programs are in place so that we can abide by all necessary health and safety requirements, while delivering a creative, enriching and exciting camp environment that sets free your spirit to learn and play through sport, academics, enrichment and discovery.

Drop Off/Pick Up

There will be designated “direct pick-up and drop-off” locations specific to each camp. Families will be informed of which locations correlates to their camp. Camp families will exclusively use Lassiter Mill Rd as an entrance creating a one-way flow towards those locations with directions to each camp and, exit at the top of campus on White Oak Rd.

- Parents will be asked to stay in their vehicles until the camper is “allowed entry” after satisfactorily completing the pre-screening. Parents should leave campus only after their child has gone through the screening. If for some reason, their child doesn’t pass screening, they will still be there to take them home.
- We will encourage parents to not leave their vehicles at all but will make the Camp Directors’ and Coaches/Instructors’ personal cell #s available if they have questions. If they have concerns or issues it will be made known that they can call the Camp Director or Coach/Instructor and ask to speak to them at their vehicle. *Cell phones of Coaches/Instructors are encouraged to be used for emergency purposes only and non-urgent camp questions should be directed via email to either Katherine Koslowsky (Camp Director) or Justin Carreker. (Summer Academy Director).*

Pre-screening

Upon exiting vehicles, students will be asked to wait in a receiving line (while remaining socially distanced) until they can satisfactorily complete the following quick pre-screening:

- Responses to screening questions for each person should be recorded and stored so that there is a record of everyone present in case a student develops COVID-19 (see sample Monitoring Form).
- Any person with positive symptoms reported should not be allowed to take part in and should contact his or her primary care provider or other appropriate health-care professional.
- Per CDC guidelines, if an athlete, coach, staff or participant has been diagnosed with COVID-19 or is presumed positive by a medical professional due to symptoms, they should be excluded from sports program or activities until:
 - No fever for at least 72 hours since recovery (without the use of fever-reducing medicine AND
 - Other symptoms have improved (e.g., coughing, shortness of breath) AND
 - At least 10 days have passed since first symptoms
 - Vulnerable individuals should not be present or participate in any workouts

Masks/PPE

Camper are welcome to wear a mask if it makes them feel more comfortable, but masks are not required. The school adheres to physical-distancing practices where possible, and supports the City of Raleigh order concerning the wearing of masks. In certain cases, third-party instructors of sciences camps may be wearing face shields.

Distancing

Campers and instructors will attempt at all times to keep a minimum distance of 6 feet between each individual. Appropriate distancing will be expected throughout camp for all campers and instructors. Instructors will be encouraged to use “more than arms-length” cues as a reminder for young students. Campers who bring bags, snacks, lunch boxes, water bottles, etc. will be sure to keep those items at least 6 feet from items other students have brought.

Cleaning/Disinfecting

Prior to campers entering an area, hard surfaces within that area should be wiped down and sanitized (chairs, furniture in meeting rooms, door handles, desks, camp equipment, etc.).

- Restrooms will be permitted but will be limited in use to one individual at a time.
- Hand washing is required; washing for a minimum of 20 seconds with warm water and soap before returning to camp.
- Hand sanitizer should be plentiful and available to campers at all times.

Other athletic/hands-on camps

Each sport camp will be encouraged to maintain distancing and where practical, be assigned their own use of a ball or equipment. Balls and equipment will be cleaned each day before next day’s use. Similarly, camps that require equipment for campers will assign that equipment to each student and no equipment should be shared between campers.
