

# ST. DAVID'S SCHOOL

## Physical Exam/Immunization Requirements

St. David's School requires a completed physical examination form for **all new students (including Pre-K and Kindergarten)** as well as all students wishing to participate in athletics. It is important for your physician to be specific with information regarding your child's health and immunization dates (month, day, and year required). The student's health forms must be completed and signed by the physician and submitted by August 1 to Magnus Health SMR, St. David's School's online medical record database.

North Carolina immunization law states that **each student enrolled in Kindergarten through twelfth grades (both public and non-public) must be immunized. All Pre-K students must submit proof of immunizations that are age appropriate.** The following are the required immunizations:

- **DPT** (Diphtheria, Pertussis, Tetanus) – 5 doses
- **Polio** – 4 doses
- **Measles** – 2 doses (MMR covers Measles, Mumps and Rubella)
- **Mumps** – 2 doses
- **Rubella** – 1 dose
- **Hib** (Haemophilus influenza type B) – 4 doses – for children under age of 5
- **Hepatitis B** – 3 doses (required for children born on or after July 1, 1994)
- **Varicella** – 2 doses (required for children born on or after April 1, 2001)  
(*Exception: History of varicella disease documented by health care provider.*)

There are also two mandatory vaccines for students entering the 7<sup>th</sup> grade. A booster dose of tetanus/diphtheria/pertussis (Tdap) vaccine is required for individuals who have not previously received it and are entering the seventh grade or by 12 years of age, whichever comes first. One Meningococcal dose is required for individuals entering the seventh grade or by 12 years of age, whichever comes first
